

## Armeria Polymer Resin Bollards

## Bollards

"Multi use residential / commercial Bollards are made from a very durable, non rust, impact resistant polymer resin. The Vixion® Bollard can be used for walkways, area lighting, end of driveway lighting and many other uses. The bulb options give the user the ability to cast a strong, medium or soft fluorescent glow that will add esthetics, security or general lighting to any and all situations where increased lighting is needed. The product comes in 6-8 stock colors and can add visual appeal to any residential or commercial application. The bulb is easy to change by removing 2 stainless steel tamper-proof screws and lifting the lid.
