Accent Landscape Lighting

Bullet Spot Lights

Accent Landscape Lighting - Armeria Bullet Spot Lights are durably constructed from a rotationally molded polymer resin. The strength and durability of these bullets perform significantly better in inclement weather than other materials. These ultra premium quality landscape lights add special lighting effects to any landscape design. Create landscape focal points by illuminating trees, signs, or unique architectural features. Armeria outdoor landscape lights are designed for commercial projects providing exterior outdoor lighting, landscape lighting for residential, commercial, homeowners associations and country club golf courses.
